Edmodo Grammar Activities

Online grammar activities for
A1 level adult students
using EDMODO

GUIDE

Diego Buestan

Introduction

English has become one of the most important languages around the world in various academic and work-related fields. Students as well as professionals are constantly looking for new and innovative ways to improve their English communicative skills.

In the English course of the “VINCULACION CON LA SOCIEDAD” program, young adults enroll every semester to accomplish their goals of learning English, especially for job opportunity-related reasons. Since many students have families and jobs, lack of time is a very important issue that usually does not let students have sufficient practice time.

Therefore, the researcher of the present project introduces this guide to help teachers and students work with the compilation of online activities in the learning platform Edmodo aimed to address A1 grammar difficulties that students present during the course outside the classroom. Research has been conducted in order to present this final work, including a survey and a proficiency test, in order to address students’ needs more accurately. This has led to the creation of student activities which are fifty minutes long, as well as specific grammar topics and topics of interest. Additionally, the grammar structures addressed in this project have been chosen according to the Common European Framework of Reference for Languages.

Information for teachers:

- Teachers have to share the instruction pages in this guide with students before assigning activities. For this purpose, teachers can either post the instruction sheet in every activity before the assignment or share this guide with students.
- It is essential for teachers to review the instruction sheet with students, since activities in the Edmodo platform are not necessarily in the order that students have to complete them. This is due to an inconvenience in the software that prohibit teachers from arranging posts in the desired order.
- The instruction sheet also contains vocabulary and a translation, given the English level of students. Moreover, it contains a chat activity that may or may not be assigned, depending on the teacher.
- Furthermore, it is important for teachers to know that there are content folders inside the LIBRARY tool in the Edmodo platform containing e-material, links used in the platform and the instruction sheets also present this guide.
- This guide includes quizzes for every activity (except activities that include a link for an audio quiz outside the platform). These quizzes will provide quantifiable grades for teachers.
- Teachers will notice that this guide contains quizzes that are present in the platform; however, the platform does not allow teachers to view or edit the quizzes. For this reason, they are included in this guide for teachers to edit or change their quizzes if necessary.
- A digital version of this guide can be found in the Edmodo account in the Library tool. It is in a folder under the name "GUIDE DIGITAL VERSION", given that there are links that cannot be access from the physical version.
